Project

This is the project to participate in the Olympic Contest of Econometrics and Applications in 2022. I'm the leader of the team and our team gained the third prize overall. Through this competition, I get more experience with data which make me want to be a data analyst in the future.

In addition, my project was posted in the VNUHCM Journal of Economics, Business and Law in English version.

THE PROJECT

Report: "Factors affecting Vietnam's coffee export by static and dynamic models".
